

PRECISION PREBIOTIC FOR NEXT-GENERATION GUT HEALTH

NATURAL
WHOLE FRUIT
POWDER OR
PURÉE

PATENTED

AWARD-
WINNING
PREBIOTIC

LOW DOSE OF
600 MG

Livaux® is a clinically proven, precision prebiotic derived from New Zealand gold kiwifruit. It selectively nourishes *Faecalibacterium prausnitzii* (F. prau), a keystone gut bacterium known for its antiinflammatory and other health benefits. **Livaux®** is a 5-time winner of NutraIngredients Prebiotic of the Year award for its proven health benefits and unique mechanism of action.

HEALTH OUTCOMES:

INCREASES FAECALIBACTERIUM PRAUSNITZII LEVELS

Boosts F. prau abundance by more than 100%, supporting gut health, reducing inflammation, and improving intestinal barrier function.

REDUCES BLOATING AND GAS

Demonstrated to decrease bloating by up to 47% and reduce hydrogenotrophic bacterial species linked to gas production.

IMPROVES BOWEL MOVEMENTS

Enhances stool frequency and consistency, with significant improvements in CSBM and BSFS scores over baseline in clinical trials.

ENHANCES PROBIOTIC GROWTH AND STABILITY

Livaux® enhances the growth and stability of probiotic strains, increasing their abundance by up to 200% in vitro at a low dose of 25 mg per billion CFU.

SCIENTIFIC VALIDATION:

4 IN VITRO STUDIES

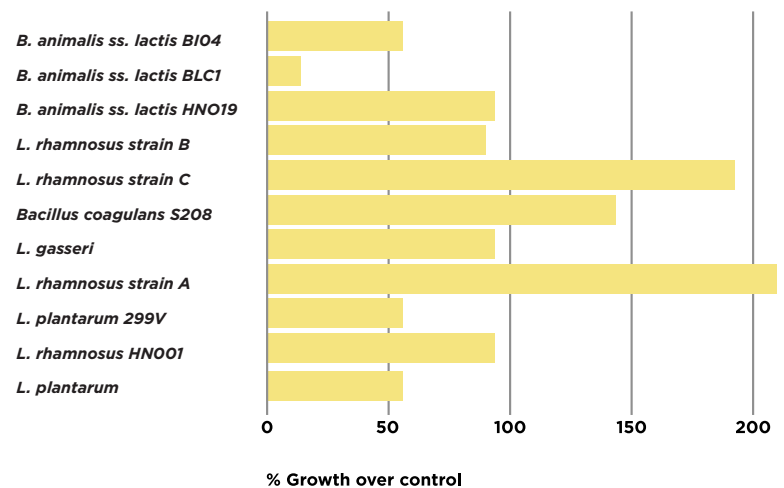

Demonstrates synbiotic benefits, supporting beneficial microbial activity and increased short-chain fatty acid (i.e., butyrate) production.

2 CLINICAL TRIALS

Published clinical studies show significant increases in F. prau by over 100% in 28 days and improvements in bowel regularity (CSBM) and bloating and other GI symptoms.

LIVAUx® SUPPORTS THE GROWTH OF PROBIOTICS UP TO >200%

REAL SCIENCE. REAL PEOPLE. REAL RESULTS.

PROUDLY BROUGHT
TO YOU BY **Anagenix**

WHAT MAKES LIVAUX[®] UNIQUE?

CLINICAL OUTCOMES:

- Increases F. prau by over 100% in 28 days.
- Improves bowel regularity (CSBM) and reduces bloating and other GI symptoms.

NUTRITIONAL PROFILE:

- Retains the natural bioactives from the whole gold kiwifruit.
- Contains 41 phenolic compounds (vs. 9 in inulin), including quercetin and chlorogenic acid.
- Rich in dietary fibre, including complex kiwifruit pectin, vitamin C, and potassium.

SLOW FERMENTATION – GENTLE ON THE SYSTEM:

- FODMAP-friendly and complex kiwifruit pectin is slowly fermented along the length of the colon to minimise gas production and maximise microbiome diversity and SCFA production.

WHY CHOOSE LIVAUX[®]?

LivauX[®] offers a scientifically validated solution for digestive health that is gentle yet effective delivering the benefits of a much-loved fruit with a long history of human consumption in an accessible form.

Backed by science:

Supported by robust clinical research, full compositional analysis available.

Sustainable, quality source:

Made from whole gold kiwifruit sourced from Zespri-accredited orchards.

Low dose, high impact:

Effective at just 25 mg per billion cfu of probiotics to 600 mg/day compared to traditional prebiotics requiring several grams.

Safe for all:

Suitable for children, pregnant women, and the elderly.

High consumer appeal:

Great-tasting with a natural fruit profile.

Formulation versatility:

Suitable for chewables, capsules, sachets, and functional foods.

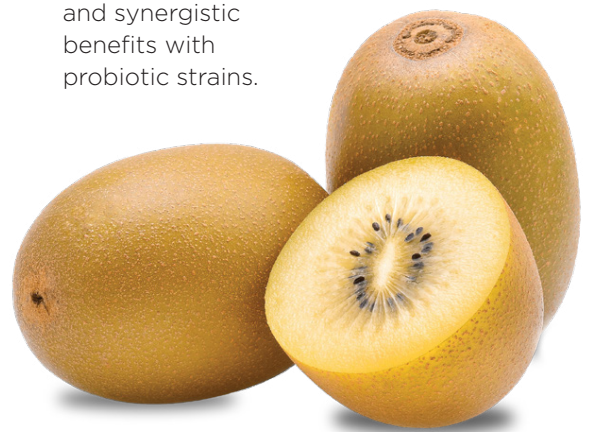

Clean label:

Non-GMO, no added sugars or flavours, GRAS-certified.

Marketing, Formulation, and Market Acceptance Testing support available.

KEY POSITIONINGS:

• LEAKY GUT / IBS:

For selectively nourishing *Faecalibacterium prausnitzii* (F. prau) to reduce inflammation, support intestinal barrier function, and promote butyrate production.

• GUT-AXES SUPPORT:

F. prau metabolites and components in support various gut axes providing comprehensive benefits that extend beyond the gut including immune function, skin health, and hormonal balance.

• COMPLIMENTARY AND SYNERGISTIC SYNBIOTICS:

By selectively feeding F. prau and promoting up to 200% growth of commercial probiotics with 25 mg per billion cfu, LivauX offers complimentary and synergistic benefits with probiotic strains.
